

DOCTOR SALT

Estetic Sea Salt & Patented Ingredients!

Doctor Salt

Doctor Salt is a functional cosmetic salt added with honey, antimicrobial, patented ceramic composition, resilient ingredient and moisturizing ingredient into the mineral rich and purified salt. It is said that salt was a Cleopatra's favorite and salt came into use to brush the teeth in Korea long ago.

The action of the osmotic pressure of Doctor Salt helps promote metabolism by effectively removing wastes in the body and reduce swelling by enhancing blood circulation. In addition, it helps clear acne or rashes by a sterilization and anti-inflammatory effect and makes your teeth and gums stronger and gets rid of bad breath if you brush your teeth with the salt.

This is a functional salt with an excellent moisturizing effect taken by attaching salinity to the skin and with a properties to keep a human body warm to be used to relieve the muscle and joint pain.
